

NP – 1000

The fully-integrated NP-1000 SIP Phone and Paging system is a turn-key Crestron compatible PBX. Designed with the installer in-mind, the NP-1000 utilizes simple web-based interfaces that enable the installer to complete installation in minutes.

Easy to install:

1. Simply add your extensions and ring groups in the web-based configuration tool.
2. Copy-and-paste the panel configuration from the web interface into Text Console.
3. The panel will be completely programmed.

FEATURES:

- ✓ Simple Web Interface
- ✓ Ring Groups and Paging Groups
- ✓ Produces Crestron Panel Code for simple cut-and-paste programming
- ✓ Easy-to-Install accessories
- ✓ Custom extension labels

ACCESSORIES:

Allow the panels to connect to the PSTN via POTS lines.* Other accessories allow analog ports for legacy gate and call-box integrations.

*Accessories Available:

Call Boxes and Door Boxes
FXO Ports
FXS Ports
SIP Telephone Handsets
PoE Network Switches
PoE Ethernet Network VIA PtP Cresnet
